

General Market Commentary

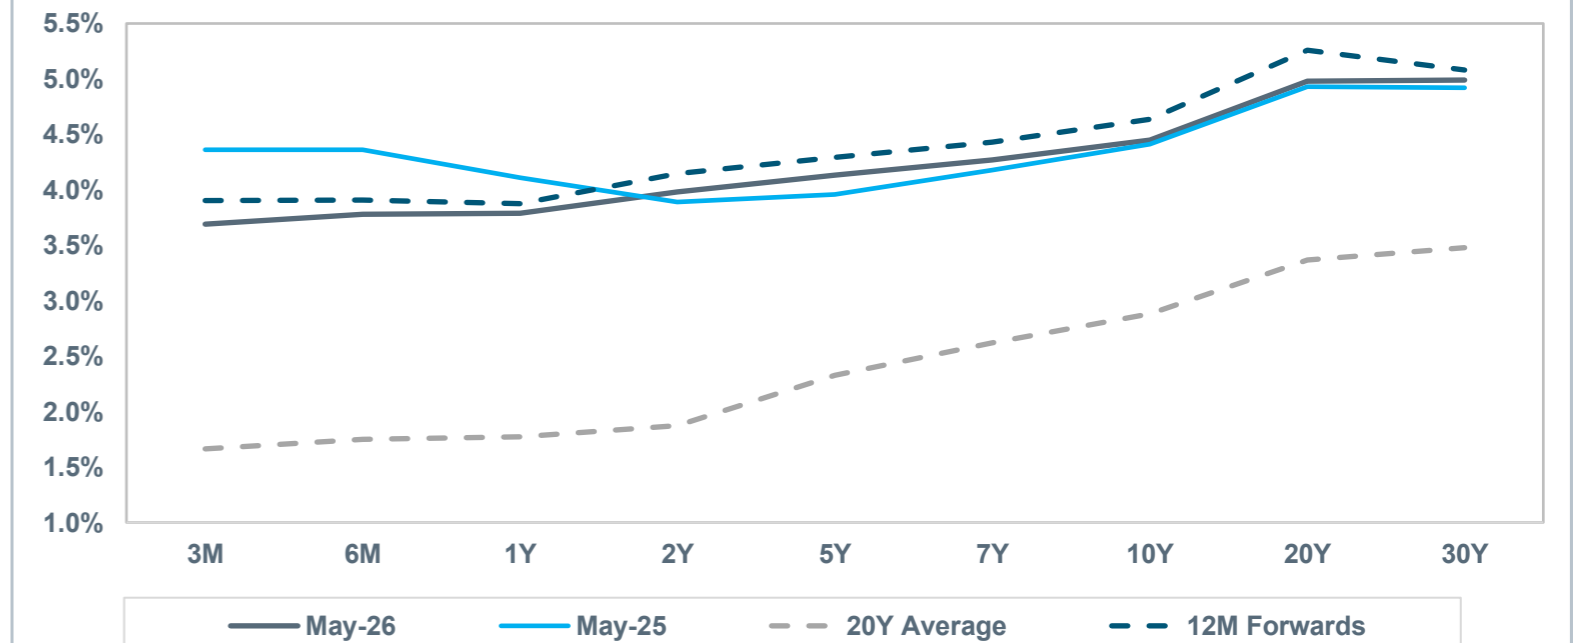

- Fueled by a robust earnings season and easing tension in the Middle East, a risk-on sentiment continued through May.
- U.S. Treasury rates rose across the curve while multiple measures of inflation saw their highest levels since 2023. Credit spreads tightened, however, and fixed income broadly generated modest gains.
- Global equities were strong, led by emerging markets, U.S. large cap growth, and the tech sector.

Growth, Inflation, and Unemployment
